**BEST  
QUALITY  
BREADS ARE  
MADE IN  
SUN BRAND  
BREAD BOXES**

— SINCE 1939 —

Manufactured by:  
**SUN METAL FACTORY (INDIA) PVT. LTD.**  
U3, Saco Estate, Kodungalur,  
Chennai - 600118

Now, bake your breads with the guarantee  
of taste, aroma and health!

Sun Brand Bread Box, made in order to maintain  
and retain the quality of the bread you make, is an  
aluminum dye cast that has been warped out of  
virgin aluminum, to ensure the quality of the  
bread you bake!

Due to this the general oxidation of iron which  
forms as rust is avoided resulting in a Great Taste  
accompanied with pleasant aroma and hygiene!  
Along with this you also obtain the longevity  
of the Bread Box which is normally  
unattainable with the  
MS Sheet boxes!

What may seem to be a little expensive  
initially may turn out to be a huge  
earning, in the long run!

Normally, the Bread Boxes made of MS Sheets are cheap-  
er compared to Sun Brand Bread Box and hence, there  
is a misconception that these boxes are expensive. But  
there is always the difference between the myth and re-  
ality! The normal MS Sheet boxes are highly prone to  
rust and lasts only for a shorter period! Also the shape  
of the bread will get affected due to heat, rough han-  
dling and oxidation.

Sun Brand Bread Boxes, since made of Virgin Alumi-  
num, avoid such complications and so results in the res-  
toration of the quality of the bread you make! It gets  
heated faster and takes less time to bake! It is also easy  
and quick to clean!

After a long period of use when you want to change the  
old one for new SUN BRAND Bread Box, you will be sel-  
ling the old box at a much more higher cost than the  
price you paid at the time you bought!

Customizing the sizes to optimize your profit!

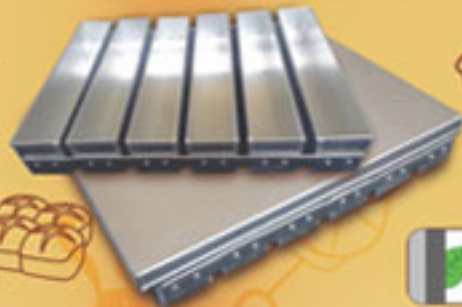

We at SUN BRAND understand the difficulty you  
face while you step in to the market. While some  
markets are cake walk others pose a tough compe-  
tition. Keeping this in mind we offer you the  
option of customizing the size of the Bread Box as  
per your requirements.
